REMINISCENCES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

Apparently the times of 1880 were propicious for young men to enter upon the practice of the legal profession in San Mateo county, for it seems that Judge Buck was not the only one of the young men of the town of Redwood City who made ready to announce the law as their choice for a life work. Here is the way the Times and Gazette announced another advent into the field of legal practice: "Edward F. Fitzpatrick, Esq., is his proper style and title now. On the 9th instant, after a due and thorough examination by the Justices of the Supreme Court our young friend and fellow townsman was duly admitted to practice as an attorney and counsellor at law in the courts of this state. We congratulate the young man on his success in his studies. He has been a diligent and conscientious student, and now at the age of but twenty-two years takes rank with the ablest practitioners of the bar. May his future be bright and prosperous." Really it does sometimes seem that time slips by on light wings. Just think over 30 years ago, almost a life's time of active business pursuits, and those two young men are still with their chosen community, still active in their separate lines of the profession to which they have devoted their minds and energies, still both honored and respected by the community which has learned to know them so well.

Few people of the present day would suspect that Redwood City had ever been the scene of a genuine mining excitement, yet history records that not only win the surrounding foothills has search been made for the precious metals but that prospecting has actually been done within the city limits. In fact the work of delving into the earth in search of the glittering will 'o the wisp that has proved the ruin of the hopes of so many was done on property of the municipality, and that with the sanction of the city officials given after long and serious consideration. The indications of existence within the confines of the town of deposits of the precious metal came as the result of work by the municipal officials in an endeavor to secure an increase in the domestic water supply. For some months the people of the city had been pestering the trustees with complaints of insufficient water service, and after repeated attempts to increase the flow of the well already in existence it was determined to sink an additional well. After much bickering a contract for this work was let to parties from San Francisco who supplied an extensive well boring outfit and drilled a hole over 400 feet in depth. This well provided a material increase in the supply of the desired domestic fluid, but the water was not long allowed to flow in peace, for the ever hungry searcher of gold had discovered in the rock brought to the surface by the borers had borne indications of what they believed to be specks of gold quartz. In those days a mere suspicion of the presence of the precious flecks was sufficient to create an excitement and it was but a few weeks until the town council was besieged with applications to prospect the depths of the well. After a lengthy controversy Mark A. Miller of San Francisco, and R. G. and A. B. Rowley, residents of the town, were given permission to rebore the well. These men spent several hundred dollars in providing machinery for this work and for three months they delved into the depths of the corporation lot before giving up the search as fruitless of profit. Apparently there had been some slight ground for the excitement produced as reliable authority states that some few particles of quartz bearing rock were brought to the surface. However these were not of sufficient quantity or richness to give returns for the money invested and the work was abandoned and the well again surrendered to the town which gained the advantage of a slightly increased flow of water. In the mean time the search was not confined to the parties working at the well, for it is reported that the surrounding foothills were thoroughly covered by prospectors and that a number of mining claims were staked out.

While the town election of 1880 had been one of bitter contest and considerable excitement, the election in the spring of 1881 passed off almost without opposition. In fact it was but a few weeks before the election that steps were taken by anyone to secure the nomination of a ticket. At the election held, May 2d, the officers elected were as follows: T. J. Smith, J. H. Buck and John Stafford, trustees; H. Grimmenstein, marshall; J. W. Glennan, clerk; Louis Jacobson, treasurer; M. Walsh, assessor; W. T. Purch, superintendent of streets. Although the election was a quiet one a total of 245 votes were cast.

Size Limit On Trout Off

No longer need one worry as to whether he has landed a trout a little below the lawful size. The new law recently passed has gone into effect which takes off the size limit of 5 inches and compels every fisherman to keep all he catches. In other words he must not throw back into the waters any he may catch. And during any calander day he may have in his possession trout not exceeding ten pounds in weight and fifty in number. The weight and number provisions were inserted into the statute for the reason that it might be possible some nimrod would have in his possession nearly the ten pounds and suddenly land one which would make the over-weight. As he could not, by law, throw any of his catch away, the lawmakers made the provision as above so as to avoid a confliction.

Died at County Hospital.

Charles Shattuck Green, a native of Maine, aged 71 years, died at the county hospital Sunday He has relatives in Maine and New Hampshire. Deceased had been an inmate of the hospital since November, 1907.

M. Cohen who has issued several valuable directories in this county is now at work on one that will include Redwood City, Menlo Park, Fair Oaks and San Carlos. It will be issued in a month. Mr. Cohen says that he is meeting with much encouragement in his undertaking.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March ot 12 o'clock m.

No change can be made by the Assessor after he turns over his books to the Board of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor as well as to yourself, to have your assessment correct when you go to pay your taxes.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

MUST ACT IN HARMONY

If there is any force to the often repeated saying that opportunity knocks but once, certainly now is the time for the people of Redwood City to prepare for action. Never has the time been more ripe for concerted effort than the present. With the thousands of people who will be attracted to this State during the coming four years—many of them men of means seeking tor opportunity for investment in legitimate enterprises—it is of the utmost importance that we should be prepared to make known the unrivaled facilities which we possess.

To accomplish this laudable purpose we must have more that individual effort. There must be united and combined work. We must make it plain that the community as a whole recognizes the intrinsic worth of the inducements which we offer and that enterprise of any legitimate character is to receive the united and harmonious support of the community.

More than this, before we can expect to induce the seaker after opportunities for investment to locate in our midst we must be able to make it plain that we are surrounded by the facilities for the transaction of buisness at least equal to that of other sections. We must secure transportation facilities at rates which will at least not put us at a disadvantage over localities less favored by nature. To secure what we deem simply our rights in this matter we must be in a position to convince those who have the controll of these facilities that our demands come as the representations of a united community.

A splended opportunity for the accomplishment of these two desirable objects is offered at this time in the formation of the San Mateo County Development Association, an organization which aims at the advancement of the welfare of the entire county along just these lines. As designed this orgatization should be in a position to accomplish the essential objects. But if it is to do this the proper support must be given by the people, and it must be made evident that the movement represents the sentiment of the community. To this end it is imperative that every business man and property owner in the county should become a member.

IT'S ALL IN THE DIFFERENCE.

"Tennyson and Longfellow could take a worthless sheet of paper, write a poem on it and make it worth $5,000,000 that's captal. feller can write a few words on a little scrap of paper and make it worth $5,000; that's genius. Rockefeller can take 129 grains of gold, put his stamp on it, and make it worth $5, that's money. A mechanic can take a steel bar not worth $5, and make it into watch springs worth over $10,000; that's skill. A woman can purchase a 75 cents hat, but prefers one that costs $27; that's foolishness. A ditch digger works ten hours a day and handles several tons of dirt for $1.25; that labor. The printer of this can write a check for $9,000, but you couldn't get 90 cents on it at the bank; that's the truth".

Labor leads to skill; skill leads to money; money minus foolishness leads to capital; the right use of captal equals genius, and genius equals common sense.

Moral—The reader of this can learn a little and spend a little less, and by putting this "little less," each week to work for him in his building and loan association for a short time, own his own home and have a savings account; that's common sense put into action, and

Notice is further hereby given that said Board of Trustees will meet in open session on Monday, the 26th day of June, 1911, at the hour of 8 o'clock P. And said bid so made may be raised not less than Ten (10) per cent by any other responsible bidder, and said bidding may so continue until finally said right, privilege and franchise shall be struck off, sold and awarded by said Board of Trustees to the highest bidder therefor, in Gold Coin of the United States.

Notice is further hereby given that each sealed bid presented for the purchase of said right, privilege and franchise shall be accompanied with cash or a certified check payable to the Treasurer of said Town of Redwood City, for the full amount of said bid, and no sealed bid shall be considered unless said cash or check is enclosed therewith. And the successful bidder shall deposit at least Ten (10) per cent of the amount of his bid with the Clerk of said Board of Trustees before the franchise shall be struck off to him; and if such successful bidder shall fail to make such deposit immediately, then and in that case his bid shall not be received, and shall be void, and the said franchise shall then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit as above mentioned, and such procedure shall be had until said franchise is struck off, sold and awarded to the bidder who shall make the necessary deposit of at least Ten (10) per cent of the amount of his bid therefor as herein provided.

Notice is further hereby given that said successful bidder shall deposit with the Clerk of said Board of Trustees of said Town of Redwood City, within twenty-four (24) hours of the acceptance of his bid, the remaining Ninety (90) per cent of the amount thereof. And in case he, or it, shall fail to do so, then the said deposit theretofore made shall be forfeited, and the said award of said franchise shall be void. And the said franchise shall then, and there, by said Board of Trustees, be again offered for sale to the highest bidder therefor, in the same manner and under the same restrictions as hereinbefore provided. MERCHANTS TO HOLD BIG BOOSTER RALLY

Redwood City Board of Trade Fixes Date For Annual Get-Together Meeting

COUNTY LEAGUE IS ENDORSED

Resolutions Adopted Approving the San Mateo County Development Association

The monthly meeting of the Redwood City Board of Trade, which was held Tuesday evening at the office of Attorney Archer Kincaid, developed an enthusiastic spirit of boost among the merchants of the city. There was a good attendance of members present when President Tuchsen of the board called the meeting to order, and much attention was given to proposals for the improvement of this city and county.

At the suggestion of Henry Steinberger a committee of three was selected to urge upon the engineering department of the army the advisability of expending the remaining portion of the government appropriation in the deepening of Redwood Creek from the deep water wharf to the lift bridge at East Bradford street. When the present dredging contract is completed there will be something over $4000 of the appropriation remaining on hand and the expenditure of this amount in clearing the water way so as to allow of the approach of vessels of reasonable draught to the central business section will do much to advance the commercial and manufacturing interests of the city. E. B. Fox, Geo. W. Lovie and Henry Steinberger were named as the committee to visit the military authorities.

The roll of members was increased by the election of two additional members.

It was decided to hold the annual banquet of the Board at the Bernasque hotel on the evening of May 22d. A number of prominent guests are to be invited and it is expected that the after dinner speeches will include discussion of many subjects of interest to the business men of the community.

Secretary Kincaid reported that during the past month he had compiled statistics of the tonage passing through Redwood Creek and of the commercial utility of that waterway. These reports he had forwarded to the engineering department of the army for their information.

The board endorsed the proposed publication of a new directory of Redwood City, Menlo Park, San Carlos and Belmont being prepared by the R. L. Polk Co. M. Cohen, Manager of this department of the directory business of Polk & Co., addressed the board explaining the scope of the work, which will be made much more complete than any directory of this section issued in the past.

After the general business of the Board of Trade had been disposed of President Tuchsen called attention to the splendid work already accomplished by the San Mateo County Development Association and spoke of the importance to this section of a general support of the movement by the business men and others interested in the development of the city and county. D. R. Stafford, former president of the board also urged that this movement should be given general support, pointing outthat for betterment of existing conditions it was necessary that there should be substantial organized work. Geo. W. Lovie offered the following resolution, which was adopted by a unanimous vote:

Whereas, there has been organized in the County of San Mateo, an association known as and called the "San Mateo County Development Association," having for its objects the improvement and betterment of conditions generally in San Mateo County, which objects are fully set forth in the constitution and by laws of said organization:

Resolved, that the Merchants' Board of Trade of Redwood City heartily approve and indorse the objects of said San Mateo County Development Association and pledges its assistance and support to said association and to that end urge our membership to affiliate therewith.

Secretary Fred H. Green of the San Mateo Development Association, who was in attendance as a guest at the meeting, addressed the members at some length, explaining the details of the organization work of the association and explaining some of the objects which it hoped to accomplish. One of the first of these will be the securing of more equitable transportation rates for peninsula points, a work which it is felt will materially aid in the development of the county. Another important part of the development work which is designed to push as energetically as possible will be along publicity lines, including the maintenance of headquarters in San Francisco where organized efforts willl be made to place information relating to San Mateo county before the throng of visitors who will be attracted during the next few years. Mr. Green urged that in order that this work may be effective it is necessary that it should have a backing that will be conclusive of a united sentiment. This is an important movement, he urged, one that should command the serious consideration of the people of all sections of the county.

A pretty home wedding was celebrated at the home of Mr. and Mrs. Joseph Levy last Sunday afternoon, when their daughter Violet was united in marriage to John Schweitzer of San Francisco. The ceremony was performed by Rabbi Martin A. Meyer of San Francisco.

PLANS STARTED FOR MORE PAVED STREETS

City Council Forms Third Big Local Improvement District

WILL BUILD CONCRETE BRIDGE

Plans are Now Being Prepared for Substantial Structure on Center Street

Unless something unforseen happens the coming winter will find Redwood City provided with an excellent system of streets. It is made plainly evident at the meeting of the council Monday evening that the trustees are determined that the era of mud in Redwood City shall come to an end. With plans for street work in two extensive districts already under way, the initiatory steps for a third district, which will include the streets of the westerly portion of the older district of the city, were taken. While there are yet some few sections of the city needing attention, all the work that can well be completed during the present season is now provided for. All of the trustees were present at the meeting and the plans submitted by City Engineer James V. Neuman were unanimously approved

J. Jacobs of Belmont presented a communication offering to provide a sanitary means of disposing of dead animals, and asking that he be given a permit to handle all cases of this character. He proposes to cart all dead animals from the city immediatly upon notification and to dispose of the carcases by crematory process, for which he asked to be allowed to make a charge of $3 for each horse and $2 for each cow. The proposition met with the approval of the trustees as being along more approved lines than those in vogue in the past and City Attorney Mansfield was instructed to investigate the matter and prepare such legislation as will enable the city to take advantage of the proposal.

T. R. Lambaugh presented for approval a bond as a licensed plumber. At the suggestion of Trustee Sampson consideration of the bond was laid over until such time as a license shall be issued to the applicant.

Wm. Jamieson made a verbal complaint against the manner in which the work of sweeping the streets is done at present. In his opinion the work is far from satisfactory, both as to the time and doing. The early hour at which it is done creates a nuisance both to pedestrians and owners of vehicles and he suggested that sweeping should not be commenced until a late hour in the evening when the streets are more clear from traffic.

It was also complained that the piles of dirt created by the sweeper are not promptly removed. As the present contract for the work will expire in a few weeks no action was taken. The general plan of street cleaning was however given a thorough discussion and it is probable that with the expiration of the present contract there will be a radical change in the method of doing this work.

City Surveyor Neuman presented a report showing the necessary surveys, estimates and plans for street work in a new improvement district to be known as Improvement District No. 17. This includes the following streets: Rodgers, Howland, Standish, Hopkins avenue, Samson, Alden, Brewster avenue, Fuller, Warren, Allerton, Winslow, Hamilton, Webster, Washington, East Fuller, East Bradford, Marshall and Bradford streets. WILL RETURN TO SCENES OF CHILDHOOD'S HAPPY DAYS

On the scenes of her childhood days, where her father once owned thousands of acres, Mrs. "Jimmy" Robinson, a well-known society matron of New York and San Francisco, has decided to erect a modest but comfortable country home.

As Caroline Hawes, Mrs. Robinson was one of the much-sought favorites of the county set, her father, Horace Hawes, being the possessor of vast tracts of land west of this city, which extended well into the foothills.

The Hawes home was noted for its hospitality and was the center for many gay parties. Much of the estate has passed out of the hands of the various owners, but Mrs. Robinson has purchased fifteen acres in a charming foothill location of the C. A. Hooper tract, where she will erect her own home not far from the site of the old family mansion.

Robert Brown, the contractor, has been awarded the contract for the building and began work early this week. It will cost about $3000 and is to be the temporary home of Mrs. Robinson for she is to erect a more pretentious residence in the near future. Wm. Jamieson will do the plumbing on the structure. Mrs. Robinson's old friends are glad to welcome her to her childhood home.

Purchases Fine Home Site.

Robert Oxnard, the sugar magnate, has purchased ninety acres of land in th foothills back of Redwood City in the Hooper tract. This purchase includes the old Horace Hawes home site that was one of the show places of the county forty years ago. Mr. Oxnard contemplates the erection of a fine residence to cost many thousands of dollars. Plans will soon be prepared for the building. It will command a fine view of the valley from its eminence on the top of the tallest hill on the tract.

Members of St. Peter's Parish Give Reception to Family of New Rector

The rectory of St. Peter's Episcopal church was the scene of a pleasant gathering Wednesday evening when about 75 members of the parish assembled to extend a welcome to the family of their new rector, Rev. A. W. Darwell. Althoug Mr. Darwall has been in charge of the work of this parish for several weeks, his family has but recently arrived and had just got setted in the rectory, and this means was selected by the members of the parish to afford both Mr. and Mrs. Darwall an opportunity to become acquainted with their charge.

The affair was intended as a surprise to Mrs. Darwall, and although Mr. Darwall had been appraised of the designs of his people, their coming was kept a secret from the chief lady of the parish. Consequently it was a matter of no little surprise to Mrs. Darwall when she was called to the door expecting a neighborly call to find the walks occupied by a merry throng of people, both old and young. This however did not dampen the genuine English hospitality of the rector and his good lady and in a few minutes all found themselves made fully at home.

A decidedly pleasant evening was spent, the older folks passing the time in social converse, while the younger element enjoyed themselves in more lively games. After a time thus enjoyably spent light refreshments, which had been provided by the ladies, were served. As souvenirs of the visit Mr. and Mrs. Darwall were the recipients of numerous useful and ornamental household articles. During his short charge of the parish Mr. Darwall has made himself quite popular with the members of his congreation and is rapidly awaking new interest in the work of the church.
